Hello,

This letter is to express my interest in your company for the SDE intern position. I am currently pursuing B.Tech from Computer Science and Engineering with a 8.25 CGPA from Madhav Institute of Technology and Science , Gwalior. I have good proficiencies in DSA(C++), python - django, and I use these languages to create and solve problems; I am confident I will be an asset to your organization. I know about Web development. I am a python enthusiast and have done some contributions in projects and research in this field. I have a keen interest in the system design of your organization and would like to personally observe and contribute to it with some new and fresh ideas. I would be thrilled to learn more alongside your cross-functional team of engineers and designers. My enclosed resume expands on my coursework, projects, and campus involvement. As I prepare for a career in computer science, I am dedicated to gaining practical experience to complement my coursework. As an enthusiastic programmer being able to understand the problem and code the solution, I'm sure I would make an excellent candidate for your company. Thank you for your time and consideration. Looking forward to working with you! Please consider my application. Sincerely yours, Suyash Agarwal
